Principles of the Tax Strategy

1.\ Governance:

The Chief Financial Officer (CFO) is responsible for the tax strategy, the supporting governance framework and management of tax risk. The operational management of tax risk is delegated to Vice President – Finance and internal tax team. Members of the tax team are responsible for day-to-day tax compliance in all jurisdictions where the Company operates and formulation of group tax strategy. Implementation of the tax strategy and management of tax and related risks are informed in timely manner to the Audit Committee and the Board of Directors.

At a functional level, Persistent has put in place a comprehensive global regulatory framework with defined process owners for various tax compliances required in all countries. Process controls are subject to regular review by the Internal audit team of the Company.

2.\ Compliance:

As regulatory compliance is a key objective for the company, tax compliance is a priority in every jurisdiction where the company operates. Persistent is committed to being fully compliant with its statutory filing obligations, ensuring complete and accurate tax returns are submitted on time and that the required amount of tax is paid by the due date. External tax advisor support is sought on a need basis to support the Company in complying with local country tax regulations.

Global compliances are tracked through the Company's compliance tracker system which has an inbuilt early warning mechanism. The summary report from the system and the dashboard is made available to the Vice President – Finance and monitored at regular intervals. Each quarter, the corporate tax team updates the tracker with compliances completed during the quarter. The Secretarial team shares this confirmation with the Board.
