Note for segment information:

- Finance costs

6 Un-allocable income

- Other un-allocable expenses

Operating segments are components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision makers, in deciding how to allocate resources and assessing performance. The Group's chief operating decision makers are the Chief Executive Officer and Chairman & Managing Director. **Segment capital employed:**

Segregation of assets (other than trade receivables and unbilled revenue), liabilities, depreciation and amortisation and other non-cash expenses into various reportable segments have not been presented as the assets and liabilities are used interchangeably among segments and the Group is of the view that it is not practical to reasonably allocate the other assets, liabilities and other non-cash expenses to individual segments and an ad-hoc allocation will not be meaningful.

Note for segment information:

Operating segments are components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision makers, in deciding how to allocate resources and assessing performance. The Group's chief operating decision makers are the Chief Executive Officer and Chairman & Managing Director.

Segment capital employed: Segregation of assets (other than trade receivables and unbilled revenue), liabilities, depreciation and amortisation and other non-cash expenses into various reportable segments have not been presented as the assets and liabilities are used interchangeably among segments and the Group is of the view that it is not practical to reasonably allocate the other assets, liabilities and other non-cash expenses to individual segments and an ad-hoc allocation will not be meaningful.
