## **Persistent Systems Limited**

STATEMENT OF CHANGES IN EQUITY FOR THE NINE MONTHS ENDED DECEMBER 31, 2019

### **Nature and purpose of reserves**

#### **a) Securities premium**

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of Section 52 of the Companies Act, 2013.

#### **b) General reserve**

General reserve represents amounts transferred from profit for the year and from Share options outstanding reserve on exercise / expiry of employee share options. It is a free reserve in terms of section 2 (43) of the Companies Act, 2013.

#### **c) Share options outstanding reserve**

Share options outstanding reserve represents the cumulative expense recognized for equity-settled transactions at each reporting date until the employee share options are exercised / expired on which such amount is transferred to General reserve.

#### **d) Capital redemption reserve**

Capital redemption reserve represents the nominal value of the shares bought back and is created and utilised in accordance with Section 69 of the Companies Act, 2013.

#### **e) Special Economic Zone re-investment reserve**

The Special Economic Zone re-investment reserve has been created out of the profit in terms of the provisions of Section 10AA(1)(ii) of the Income tax Act, 1961. The reserve should be utilised by the Company for acquiring new plant and machinery for the purpose of its business in accordance with Section 10AA(2) of the Income tax Act, 1961.

#### **f) Cash flow hedge reserve**

The cash flow hedge reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of hedging instruments entered into towards highly probable transactions. Such gains or losses are subsequently recognised in the statement of profit and loss in the period in which the such transaction occurs / hedging instruments are cancelled.

## **Persistent Systems Limited**

### **Notes forming part of condensed financial statements**

#### **1. Nature of operations**

Persistent Systems Limited (the "Company") is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956 (the "Act"). The shares of the Company are listed on Bombay Stock Exchange and National Stock Exchange. The Company is a global company specializing in software products, services and technology innovation. The Company offers complete product life cycle services.

#### **2. Basis of preparation**

The condensed financial statements of the Company have been prepared on an accrual basis and under the historical cost convention except for certain financial instruments and equity settled employee stock options which have been measured at fair value. Historical cost is generally based on the fair value of consideration given in exchange of goods and services. The accounting policies are consistently applied by the Company during the period and are consistent with those used in previous year except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

#### **Statement of compliance**

These condensed financial statements have been prepared in accordance with Ind AS 34 Interim Financial Reporting as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013.

#### **3. Summary of significant accounting policies**

##### **(a) Use of estimates**

The preparation of the condensed financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities at the end of period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

#### **Critical accounting estimates**

##### **i. Revenue recognition**

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Further, the Company uses significant judgement while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

In respect of the contracts where the transaction price is payable as revenue share at pre-defined percentage of customer revenue and bearing in mind, the time gap between the close of the accounting period and availability of the revenue report from the customer, the Company is required to use its judgement to ascertain the income from revenue share on the basis of historical trends of customer revenue.

##### **ii. Income taxes**

The Company's major tax jurisdiction is India, though the Company also files tax returns in other overseas jurisdictions. Significant judgements are involved in determining the provision for income taxes.

##### **iii. Property, plant and equipment**

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed periodically. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

##### **iv. Provisions**

Provisions are determined based on the best estimate required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

## Persistent Systems Limited

### Notes forming part of condensed financial statements

#### (b) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises the purchase price and directly attributable costs of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Capital work-in-progress includes cost of Property, Plant and Equipment that are not ready to be put to use.

Subsequent expenditure related to an item of Property, Plant and Equipment is added to its original cost only if it is probable that future economic benefits associated with the item will flow to the Company. All other expenses on existing Property, Plant and Equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from disposal of Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

#### (c) Intangible assets

Intangible assets including software licenses of enduring nature and contractual rights acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use.

Gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

##### *Research and development cost*

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Company can demonstrate:

- technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention to complete the asset;
- its ability to use or sell the asset;
- how the asset will generate probable future economic benefits;
- the availability of adequate resources to complete the development and to use or sell the asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during development.

Such development expenditure, until capitalization, is reflected as intangible assets under development.

Following the initial recognition, internally generated intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Amortization of internally generated intangible asset begins when the development is complete and the asset is available for use.

#### (d) Depreciation and amortization

Depreciation on Property, Plant and Equipment is provided using the Straight Line Method ('SLM') over the useful lives of the assets estimated by the management.

The management estimates the useful lives for the Property, Plant and Equipment as follows:

Assets	Useful lives
Buildings*	25 years
Computers	3 years
Computers - Servers and networks*	3 years
Office equipments	5 years
Plant and equipment*	5 years
Plant and equipment (Windmill)*	20 years
Plant and equipment (Solar Energy System)*	10 years
Furniture and fixtures*	5 years
Vehicles*	5 years

\*For these classes of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the management believes that the useful lives as given above best represent the period over which the management expects to use these assets. Hence the useful lives of these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Individual assets whose cost does not exceed ₹ 5,000 are fully depreciated in the year of acquisition.

Leasehold improvements are amortized over the period of lease or useful life, whichever is lower.

Intangible assets are amortized on a straight line basis over their estimated useful lives commencing from the day the asset is made available for use.

**(e) Financial instruments****i) Financial assets***Initial recognition and measurement*

Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through profit or loss) are added to the fair value of the financial assets on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

*Subsequent measurement*

For the purpose of subsequent measurement, financial assets are classified as:

**- Financial assets at amortized cost**

Financial assets that are held within a business model whose objective is to hold assets for collecting contractual cash flows and whose contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are subsequently measured at amortized cost using the effective interest rate method. The change in measurements are recognized as finance income in the statement of profit and loss.

**- Financial assets at fair value through other comprehensive income (FVTOCI)**

Financial assets that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets and the assets' contractual cash flows represent solely payments of principal and interest on the principal amount outstanding are subsequently measured at fair value. Fair value movements are recognized in other comprehensive income.

**- Financial assets at fair value through profit or loss (FVTPL)**

Any financial asset which does not meet the criteria for categorization as financial asset at amortized cost or as FVTOCI, is classified as financial asset at FVTPL. Financial assets except derivative contracts included within the FVTPL category are subsequently measured at fair value with all changes recognized in the statement of profit and loss.

**- Forward exchange contracts not intended for trading or speculation purposes, classified as derivative financial instruments**

As per the accounting principles laid down in Ind AS 109 – "Financial Instruments" relating to cash flow hedges, derivative financial instruments which qualify for cash flow hedge accounting are fair valued at balance sheet date and the effective portion of the resultant loss / (gain) is debited / (credited) to the hedge reserve under other comprehensive income and the ineffective portion is recognized to the statement of profit and loss. Derivative financial instruments are carried as forward contract receivable when the fair value is positive and as forward contract payable when the fair value is negative.

Changes in the fair value of derivative instruments that do not qualify for hedge accounting are recognized in the statement of profit and loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, or terminated, or exercised, or no longer qualifies for hedge accounting. Any cumulative gain or loss on the hedging instrument recognized under other comprehensive income under other comprehensive income is transferred to the statement of profit and loss when the forecasted transaction occurs or affects profit or loss or when a hedged transaction is no longer expected to occur.

*Derecognition*

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity, if any, is recognised in profit or loss.

**ii) Financial liabilities***Initial recognition and measurement*

Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to issue of financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are deducted from the fair value of the financial liabilities on initial recognition. Transaction costs directly attributable to the issue of financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

## Persistent Systems Limited

### Notes forming part of condensed financial statements

#### *Subsequent measurement*

For the purpose of subsequent measurement, financial liabilities are classified as:

- **Financial liabilities at amortized cost**

Financial liabilities such as loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. The change in measurements are recognized as finance costs in the statement of profit and loss.

- **Financial liabilities at fair value through profit or loss (FVTPL)**

Financial liabilities include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss if the recognition criteria as per Ind AS 109 – "Financial Instruments" are satisfied. Gains or losses on liabilities held for trading are recognized in statement of profit and loss. Fair value gains or losses on liabilities designated as FVTPL attributable to changes in own credit risk are recognized in other comprehensive income. All other changes in fair value of liabilities designated as FVTPL are recognized in the statement of profit and loss. The Company has not designated any financial liability as at FVTPL.

#### *Derecognition*

The Company derecognises financial liabilities when the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

### iii) Impairment

#### i) Financial assets

The Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on financial assets measured at amortized cost and financial assets that are debts instruments and are measured at fair value through other comprehensive income (FVTOCI). ECL is the difference between contractual cash flows that are due and the cash flows that the Company expects to receive, discounted at the original effective interest rate.

For trade receivables, the Company recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. For other financial assets, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

#### ii) Non-financial assets

The carrying amounts of Property, Plant and Equipment are reviewed at each balance sheet date or whenever there is any indication of impairment based on internal/external factors. If any indications exist, the Company estimates the asset's recoverable amount unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. The recoverable amount is the greater of the asset's fair value and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. An impairment loss is recognised in the statement of profit and loss.

Recoverable amount of intangible under development that is not yet available for use is estimated at least at each financial period end even if there is no indication that the asset is impaired.

### (f) Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or development of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period / year they occur.

### (g) Leases

#### *Where the Company is a lessee*

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease

incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located.

The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment.

Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease expenses associated with these leases are recognized in the statement of profit and loss on accrual basis.

#### **Company as a lessor**

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income over the lease term.

#### **(h) Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts and volume rebates allowed by the Company. Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

##### **(i) Income from sale of software services and products**

The company derives revenues primarily from IT services comprising of software development and related services and from the licensing of software products.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration expected to receive in exchange for those products or services.

Arrangements with customers for software related services are either on a time-and-material or a fixed-price basis.

Revenue on time-and-material contracts are recognized as and when the related services are performed. Revenue from fixed-price contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period.

The company has applied the principles under Ind AS 115 to account for revenues from these performance obligations.

When support services are provided in conjunction with the licensing arrangement and the license and the support services have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. Maintenance revenue is recognized proportionately over the period in which the services are rendered.

Revenue from revenue share is recognized in accordance with the terms of the relevant agreements.

The company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the proportionate allocation of the discounts amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount. Also, when the level of discount varies with increases in levels of revenue transactions, the Company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in

## **Persistent Systems Limited**

### **Notes forming part of condensed financial statements**

the estimated amount of obligations for discounts in the period in which the change occurs.

Unbilled revenue represents revenue recognized in relation to work done until the balance sheet date for which billing has not taken place.

Unearned revenue represents the billing in respect of contracts for which the revenue is not recognized.

The Company collects Goods and Service Tax, value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue.

#### **(ii) Interest**

Interest income is recognized on a time proportion basis taking into account the carrying amount and the effective interest rate. Interest income is included under the head 'Other income' in the statement of profit and loss.

#### **(iii) Dividend**

Dividend income is recognized when the Company's right to receive dividend is established. Dividend income is included under the head 'Other income' in the statement of profit and loss.

#### **(i) Government grants**

Government grants are recognized at fair value when there is reasonable assurance that the Company will comply with the conditions attaching to them and the grants will be received. Grants related to purchase of assets are treated as deferred income and allocated to income statement over the useful lives of the related assets while grants related to expenses are deducted in reporting the related expenses in the income statement.

#### **(j) Foreign currency translation**

##### ***Foreign currency transactions and balances***

##### ***Initial recognition***

Foreign currency transactions are recorded in the functional currency of the Company, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

##### ***Conversion***

Foreign currency monetary items are reported using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates at the date when the values were determined.

##### ***Exchange differences***

Exchange differences arising on conversion / settlement of foreign currency monetary items and on foreign currency liabilities relating to Property, Plant and Equipment acquisition are recognized as income or expenses in the period in which they arise.

##### ***Translation of foreign operations***

The Company presents the financial statements in INR which is the functional currency of the Company.

The assets and liabilities of a foreign operation are translated into the reporting currency (INR) at the exchange rate prevailing at the reporting date.

#### **(k) Retirement and other employee benefits**

##### **(i) Provident fund**

Provident fund is a defined contribution plan covering eligible employees. The Company and the eligible employees make a monthly contribution to the provident fund maintained by the Regional Provident Fund Commissioner equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contributions to the provident fund are charged to the statement of profit and loss for the period / year when the contributions are due. The Company has no obligation, other than the contribution payable to the provident fund.

##### **(ii) Gratuity**

Gratuity is a defined benefit obligation plan operated by the Company for its employees covered under Company Gratuity Scheme. The cost of providing benefit under gratuity plan is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date and are charged to the statement of profit and loss, except for the remeasurements, comprising of actuarial gains and losses which are recognized in full in the statement of other comprehensive income in the

## **Persistent Systems Limited**

### **Notes forming part of condensed financial statements**

reporting period in which they occur. Remeasurements are not reclassified to profit and loss subsequently.

#### **(iii) Superannuation**

Superannuation is a defined contribution plan covering eligible employees. The contribution to the superannuation fund managed by the insurer is equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contribution to this scheme is charged to the statement of profit and loss on an accrual basis. There are no other contributions payable other than contribution payable to the respective fund.

#### **(iv) Leave encashment**

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Remeasurements, comprising of actuarial gains and losses are recognized in full in the statement of profit and loss. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

The Company presents the entire leave encashment liability as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

#### **(v) Long service awards**

Long service awards are other long term benefits to all eligible employees, as per Company's policy. The cost of providing benefit under long service awards scheme is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date. Remeasurements, comprising of actuarial gains and losses are recognized in full in the statement of profit and loss.

### **(I) Income taxes**

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized directly in equity is recognized in equity and not in statement of profit and loss.

Deferred income taxes reflect the impact of temporary differences between tax base of assets and liabilities and their carrying amounts. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except deferred tax liability arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, affects neither accounting nor taxable profit/ loss at the time of transaction. Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses, except deferred tax assets arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, affects neither accounting nor taxable profit/ loss at the time of transaction. Deferred tax assets are recognized only to the extent that sufficient future taxable income will be available against which such deferred tax assets can be realized.

In the situations where the Company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of temporary differences which reverse during the tax holiday period, to the extent the Company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognized in the period / year in which the temporary differences originate.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available against which such deferred tax assets can be realized.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognized outside the statement of profit and loss is recognized in co-relation to the underlying transaction either in other comprehensive income or directly in equity.

Minimum alternate tax (MAT) paid in a period / year is charged to the statement of profit and loss as current tax. MAT credit available is recognized as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit

and loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

**(m) Segment reporting**

In accordance with para 4 of Notified Indian Accounting Standard 108 (Ind AS-108) "Operating Segments" the Company has disclosed segment information only on the basis of consolidated financial statements which are presented together with the unconsolidated financial statements.

**(n) Earnings per share (EPS)**

Basic earnings per share are calculated by dividing the net profit for the period / year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period / year. The weighted average number of equity shares outstanding during the reporting period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), if any occurred during the reporting period, that have changed the number of equity shares outstanding, without a corresponding change in resources. Further, the weighted average number of equity shares used in computing the basic earnings per share is reduced by the shares held by PSPL ESOP Management Trust at the balance sheet date, which were obtained by subscription to the shares from finance provided by the Company.

For the purpose of calculating diluted earnings per share, the net profit for the period / year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period / year, are adjusted for the effects of all dilutive potential equity shares.

The number of shares and potential dilutive equity shares are adjusted retrospectively for all periods presented for any bonus shares issues including for changes effected prior to the approval of the condensed financial statements by the Board of Directors.

**(o) Provisions**

A provision is recognized when the Company has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

**(p) Contingent liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation.

A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably.

**(q) Cash and cash equivalents**

Cash and cash equivalents in the cash flow statement comprises of cash at bank, cash in hand and short term deposits with an original maturity period of three months or less.

**(r) Employee stock compensation expenses**

Employees of the Company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments granted (equity-settled transactions).

In accordance with Ind AS 102 – "Share Based Payments", the cost of equity-settled transactions is determined by the fair value of the options at the date of the grant and recognized as employee compensation cost over the vesting period. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.

The expense or credit recognized in the statement of profit and loss for a period / year represents the movement in cumulative expense recognized as at the beginning and end of that period / year and is recognized in employee benefits expense. In case of the employee stock option schemes having a graded vesting schedule, each vesting tranche having different vesting period has been considered as a separate option grant and accounted for accordingly.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

The employee stock option expenses in respect of the employees of the subsidiaries are charged to the respective subsidiary.

<b>Issued, subscribed and fully paid-up share capital</b>	<b>764.25</b>	<b>800.00</b>	<b>791.19</b>

**a) Reconciliation of the shares outstanding at the beginning and at the end of the period/ year:**

The reconciliation of the number of shares outstanding and the amount of share capital is set out below:

(In Million)

	As at December 31, 2019		As at December 31, 2018		As at March 31, 2019	
	No. of shares	Amount	No. of shares	Amount	No. of shares	Amount
Number of shares at the beginning of the period/year	79.12	791.19	80.00	800.00	80.00	800.00
Less: Shares bought back	2.69	26.94	-	-	0.88	8.81
<b>Number of shares at the end of the period/ year</b>	<b>76.43</b>	<b>764.25</b>	<b>80.00</b>	<b>800.00</b>	<b>79.12</b>	<b>791.19</b>

**b) Terms / rights attached to equity shares**

The Company has only one class of equity shares having a par value of ₹10 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

**c) Aggregate number of bonus shares issued, shares issued for consideration other than cash and shares bought back during the period of five years immediately preceding the reporting date**

	For the period of five years ended December 31, 2019 No in Million	For the period of five years ended December 31, 2018 No in Million	For the period of five years ended March 31, 2019 No in Million
Equity shares allotted on March 12, 2015 as fully paid bonus shares by capitalization of securities premium ₹ 400.00 million	40.00	40.00	40.00
Equity shares bought back	3.575	-	0.88

(This space is intentionally left blank)

**Persistent Systems Limited****Notes forming part of condensed financial statements****d) Buyback of Equity Shares of the Company:**

The Board of Directors, in its meeting held in January 2019, approved the buyback by the Company of its fully paid-up equity shares having face value of ₹ 10 each. The window for buying the shares opened on February 8, 2019 and the Company has purchased 3,575,000 equity shares between February 2019 and June 2019 and has extinguished these shares after following the due process. The Company has completed the Buyback on June 27, 2019 and the total number of equity shares outstanding as on December 31, 2019 post buyback stands at 76,425,000.

**e) Details of shareholders holding more than 5% shares in the Company**

Total		1,264.16	1,264.16	980.80	980.80	1,169.21	1,169.21	

\* Fair value includes interest accrued.

**Fair value hierarchy:**

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

## Persistent Systems Limited

### Notes forming part of condensed financial statements

31. Persistent Systems Limited ("the Company") had received a show cause notice from the Commissioner of Service Tax on December 19, 2016 for non-payment of service tax of ₹ 452.15 million under import of services on reverse charge basis, excluding interest and penalty, if applicable. The issue relates to the professional and technical services rendered by overseas subsidiaries on behalf of the Company to its overseas customers for the period 2011-12 to 2014-15.

Post representations made by the Company, the Learned Principal Commissioner of Service Tax, Pune, adjudicated the aforesaid show-cause notice and issued an order on May 29, 2017, reducing the demand to ₹173.78 million based on the period of limitation and as a result of that, the said demand now covers financial year 2014-15. The Company has filed an appeal against the order passed by Learned Principal Commissioner of Service Tax, Pune with the Hon'ble Central Excise and Service Tax Appellate Tribunal (CESTAT) on September 23, 2017.

The Company, based on independent legal opinion obtained in respect of issues related to this matter, believes that the liability is not likely to arise and therefore, no provision is considered necessary in the condensed financial statements. If the appeal filed as mentioned above results in a demand, there will be no impact on the profitability as the Company will be eligible to claim credit/refund for the amount paid.

The GST department has filed an appeal on October 11, 2017 with appellate authorities against the Order passed by Learned Principal Commissioner of Service Tax, Pune. Though the GST department has acknowledged the ground of revenue neutrality, the said appeal mainly questions non-application of extended period of limitation. The Company has filed reply to this appeal on December 18, 2017.

As on December 31, 2019, the pending litigations in respect of direct taxes amount to ₹ 220.30 million and in respect of indirect taxes amount to ₹ 27.33 million (excluding the show cause notice received from Commissioner of Service Tax on May 29, 2017 of ₹ 173.78 million under import of services on reverse charge basis as mentioned above). Based on the advice obtained and judgments in favour of the Company at the first appellate authority in the earlier years, management does not expect any outflow in respect of these litigations.

In respect of export incentives, pertaining to previous years amounting to ₹ 296.55 million, which have been refunded under protest based on show cause notice from Directorate of Revenue Intelligence (DRI), the Company has filed an application before the relevant authorities. Further, the Company is in the process of making representations through the industry associations to ensure continued applicability of the said incentives to the eligible information technology companies.

Persistent Systems Ltd has given a guarantee of \$ 15.17 million on behalf of Persistent Systems Inc. (Previous year: \$ 15.17 million).

32. As reported in the previous quarters, the Company has deposits of ₹ 430 million with the financial institutions viz. Infrastructure Leasing & Financial Services Ltd. (IL&FS) and IL&FS Financial Services Ltd. (referred to as "IL&FS Group") as on the balance sheet date. The Company has not accrued any interest on these deposits since April 1, 2018. The amount due including interest have not been received as on date. In view of the uncertainty prevailing with respect to recovery of outstanding balances from IL&FS Group, Management of the Company has provided an additional amount of ₹ 150.00 million during the half year ended December 31, 2019, thereby taking the total provision to ₹ 332.50 million for impairment in value of deposits as of December 31, 2019. The provision currently reflects the exposure that may arise given the uncertainty. With the resolution plan in progress, the Management is hopeful of recovery though with a time lag. The Company continues to monitor developments in the matter and is committed to take steps including legal action that may be necessary to ensure full recovery of the said deposits.
33. Effective April 1, 2019, the company has adopted Ind AS 116, Leases; and has recognized interest on lease liability of ₹ 34.23 million under finance costs.
34. The condensed financial statements are presented in ₹ million and decimal thereof except for per share information or as otherwise stated.
